

How to verify and change EComm DNS contact information and passwords

1. Go to <https://www.godaddy.com/default.aspx> URL and click on “My Account” tab.

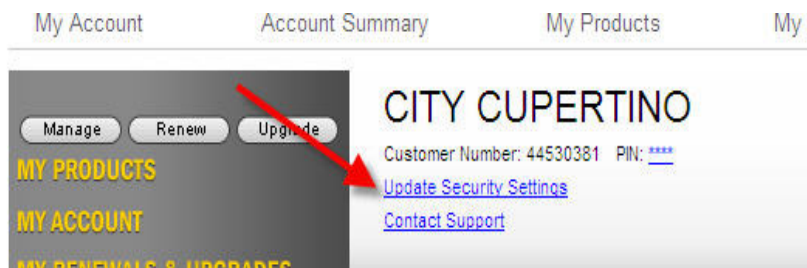

2. Click on “Login link”

3. Key in the userID and temporary password provided and click on “Secure Login” button.

4. Once login, Select “Update Security Settings” in the middle of the page.

5. This will take you to a page where you can change information specific to your organization.

Note: each change requires you to enter the password... it is the same as the “Account Login” password.

Account settings.

Contact Preference Information

The screenshot shows a form with several input fields and a checkbox. The fields are: Email (test-email@sanjoseca.gov), Confirm Email, Login (cptsvria), Current Password, New Password, and Confirm New Password. Each field has a red asterisk to its right. There is also a checkbox for 'Card on File' with the label 'Enable' and a link for 'Password Requirements'.
