Vendor	Product	Purpose and General Description	Primary Custodian	Data Collection Frequency	Data Update Frequency
Microsoft	Microsoft Dynamics GP	Microsoft Dynamics GP is an enterprise planner resource (ERP) (Financial and HR) system. Internal SCAG financial and payroll transactions are conducted using this system.	Finance Division	Daily	Daily
PairSoft	WorkPlace	WorkPlace is a third party purchase requisition program that integrates with the Microsoft GP system. SCAG staff inputs purchase requisitions (PRs) through this application. Once approved by the appropriate manager and director, the PR will be processed and entered as a purchase order in Microsoft GP.	Finance Division	Daily	Daily
Hyland Software	OnBase	OnBase is a single enterprise information platform for managing content, processes and cases. Onbase is the SCAG system of record for some of SCAG's final documents.	Information Technology	Daily	Daily
Microsoft	CRM	Microsoft Dynamics CRM comprises a variety of tools to track, manage, execute, and report on SCAG interactions with Board Members & Partners, Elected Officials, Stakeholders, City and County Agencies, and Vendors. The system includes a large and customizable database, a variety of workflow and automation tools, and customizable reports.	Information Technology	Daily	Daily
Ecointeractive	Federal Transportation Improvement Program (eFTIP)	FTIP is a web-based project management system that facilitates The Federal Transportation Improvement Program team to manage, analyze, approve, and reject projects submitted by the 6 county transportation commissions (CTCs) staff. The FTIP team ensures all projects submitted meet the requirements set forth by the State and Federal agencies. The FTIP database is also used to amend project information/funding throughout an approved FTIP period.	Federal Transportation Improvement Program Department	Daily	Daily
Microsoft	FMS	SCAG Financial Management System for budget development and procurement/contract management.	Finance Division	Daily	Daily
SCAG Custom Application	Inter-Government Review (IGR)	SCAG is the authorized regional agency for Inter-Governmental Review (IGR) of programs proposed for Federal financial assistance and direct Federal development activities pursuant to Presidential Executive Order 12372. Additionally, SCAG reviews the Environmental Impact Reports of projects of regional significance for consistency with regional plans pursuant to the California Environmental Quality Act (CEQA) and CEQA Guidelines. The IGR application is a web-based system that SCAG staff developed and use to log, track, and monitor projects that SCAG IGR Program receives. The projects that SCAG IGR Program receives vary in project types, locations, and levels of environmental analysis. The IGR database assists planners in tracking projects, including residential and commercial development projects, that were submitted by the public, as well as provides planners with project-level planning information that is useful for understanding the region's current and future growth trends.	Compliance & Performance Monitoring Department	Daily	Daily
Microsoft	Office 365	SCAG uses Office 365 for a variety of activities which include: Internal Project Websites, Document Sharing & Collaboration, Web Conferencing, and Instant Messaging within the organization.	Information Technology	Daily	Daily
